

# HOW TO BECOME AN E-TWINNER

## DESIGN A PROJECT

### Planning is the key

Prepare objectives, tasks, materials... all the necessary tools to get your project off the ground.

## ENGAGE STUDENTS

### The centre of the project

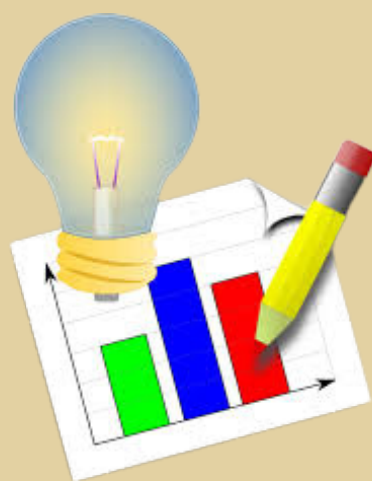

Students are the most relevant element of this puzzle. Once you have something ready for them, fill them up with your energy and get them involved in this amazing adventure.

## BUILD A TEAM

### Working alone is not easy

When deciding to get involved in the enriching E-twinning community, you should make sure you have support from your teamwork.

## FIND MEMEBERS

### Choosing the right one

Your ideas and enthusiasm will not be enough! Establish links with other dedicated and passionate teachers.

## WORK AND HAVE FUN

### Creating a product

Teaching had never been so fun! You will be developing all your professional skills while embracing the biggest challenges of your career.
