

# BOOKS BREAKING BORDERS: OUR EUROPEAN LIBRARY

Alicia Gonzalez Garcia

## LANGUAGE

English

## AGES

From 12 to  
16

## SUBJECTS

Literature, history, culture,  
foreign languages

## ABOUT THE PROJECT

Books are the best way of traveling and meeting the world. That is why teenagers should be in touch with the books that have changed our history. With this project, our students will travel to each member country and it's background through its most valuable authors.

## AIMS

- Develop communication and collaborative skills
- Improve their English Language skills
  - Develop critical thinking
- Develop their entrepreneur skills and get involved in a project.
  - Develop ICT skills
- Discover the importance of books
  - Discover European cultures
- Get in touch with European literature

## WORK PROCESS

- Meet the other members
- Prepare the different authors that we want to present
- Add its presentations and books to the collaborative library

## EXPECTED RESULTS

The students of each school will choose two or three authors from their country. After a research, they will work on different presentations to show the other students so that they can learn more about them. After that, each group will create an adaptation of one of the books of the author.

Together, they will find a name for their future library.

Finally, all the books will be put together in a collaborative library. If it is possible we will send the books to the other schools and exchange our work creating this way an imaginative library.
