simply practice these words.

There are images and in some cases audio in these types of games. Please note that if you want to stop hearing the introductory audio repeating, simply click the start button. Click on the dice to roll. A random number will show up and your ship will advance. There are traps on the way. Do not land on a volcano island or pirate. A question will pop up and the player must choose the correct answer or risk going back. Meeting a pirate is ugly - you get shot at and you go back to start.

A simple video and chant to teach 24 body parts in English. Set to a light backing beat, this listen and repeat video is great for parent and child to watch together while identifying parts of the body. Enjoy. :)
